

29/3/2023, Pezinok

## The Slovak National Gallery also showed interest in HACHAI

HACHAI seat bags are a great accessory not only for events, but also for educational activities such as lectures, seminars and workshops.

Obrázok 1 photo: Simon Parec

They are made by upcycling from eco leather, textile, or advertising banners. In addition to looking good, they are very comfortable and practical. Schools, educational centers, events, and companies are interested in them. The Slovak National Gallery (SNG), specifically its branch - Schaubmar's mill in Pezinok, also expressed interest in cooperation.

In addition to visiting and touring the historic mill, you can sit on our HACHAI beanbags. You can find them in the educational room, where, in addition to education, various playful and creative activities for children take place.

The exhibition named "Lost and Found". Expedition to the past and future of Schaubmar's mill", which is currently located at Schaubmar's mill in Pezinok, will last until April 28, 2023 (along with our mutual cooperation.
